

THE PROBLEM

PROSPECT QUALIFICATION PIPELINE

Qualification often disappears into a score nobody can inspect.

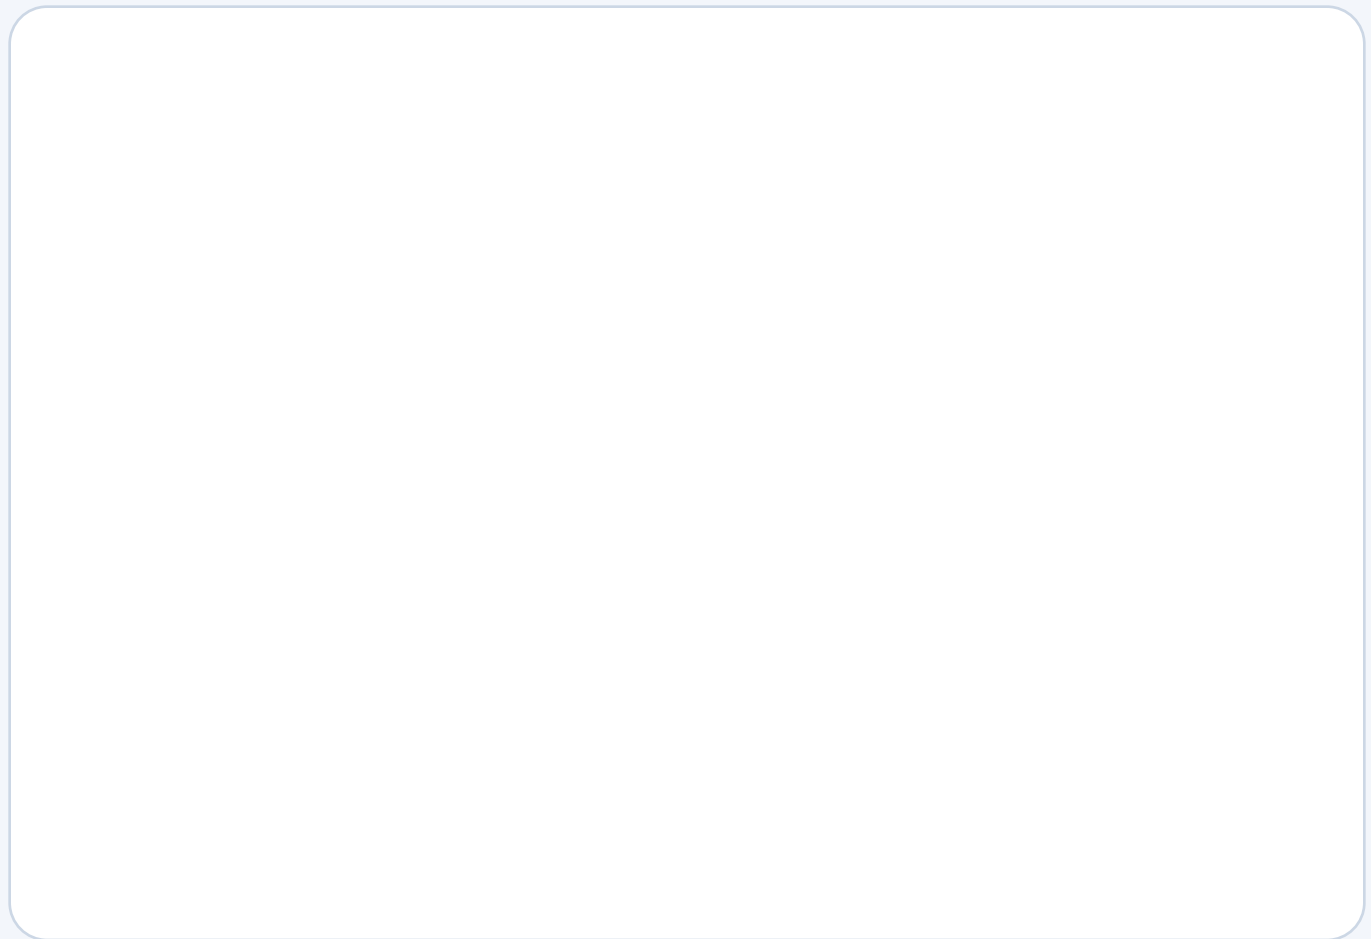

Make the criteria visible before the decision.

THE MODEL

PROSPECT QUALIFICATION PIPELINE

Fit + need + timing + next step.

Four explicit fields. No hidden score.

HOW IT WORKS

PROSPECT QUALIFICATION PIPELINE

Supported evidence can qualify. Explicit non-fit, no-need, or out-of-window timing disqualifies with a visible reason.

Missing, invalid, or contradictory evidence goes to REVIEW.

PROOF

PROSPECT QUALIFICATION PIPELINE

**Synthetic cases exercise QUALIFIED,
DISQUALIFIED, and REVIEW paths.**

Reasons remain visible. CSV export preserves status and reason.

BOUNDARY

PROSPECT QUALIFICATION PIPELINE

Demo only. Synthetic data.

No CRM, enrichment, predictive scoring, revenue claim, regulated-data claim, or automated sales decision.

INSPECT IT

PROSPECT QUALIFICATION PIPELINE

Compare the explicit workflow with your own qualification process.

Day 11 / 30 · One verified release.
